TEFLON [PTFE] CABLES

Thermoplastic resins such as PVC or PP have largely replaced other type of materials for cable insulation. Whithb due to their cost effectiveness and easy availability, when used for general purpose building wiring.

In certain area of application, however these materials are not adequate; Hence further Research and development in insulating material has given birth to the ultimate material for insulation of conductors. Where SAFETY OF FIRE HAZARDS & RELIABILITY of long life are prime concern called TEFLON (poly tetra fluoro ethylene, Developed into the labs of DUPONT INTERNATIONAL giant in chemical technology.
